SELF-CONTAINED VACUUM SYSTEMS

PORTABLE VACUUM SYSTEMS
Hoffman & Lamson’s experience with these portable products descended from the Invincible line dating back to 1905. Over 150,000 units are in use around the world on every application ranging from general housekeeping to spill pick-up and dust control. Portable vacuum systems are mounted on a common frame and include the exhauster, motor and secondary type collector. Our engineers will ensure the portable unit you choose is the most efficient and cost effective choice to achieve the desired performance.
FEATURES
1. Continuous-duty TEFC (except 1353P TENV)
2. Double inverted, easy access filter bag for maximum filter surface area
3. Rugged, cast aluminum vacuum producer ensures durability and reduced vibration
4. Durable, compact, portable chassis for single person mobility
5. Easy to handle, removable dump bucket
6. Tool carrier
7. NEMA 1 manual push button starter with 25 foot cord
8. Hose inlet for 1.5” and 2” hoses
9. Discharge protection screen

AVAILABLE OPTIONS
• HEPA filters
• Automatic or manual bag shakers
• Sound enclosures for 80 dBA
• Auxiliary collectors
• Explosion-resistant motor and starters NEMA 7/9
• Stainless steel contact points
• Stationary frames for central vacuums
• Crane hook lift assembly
• Premium efficiency filtration – 99.9% @ 0.5 or 0.3 micron
• Special electrical panels for process applications
• Inlets for multiple users
