

Quick-Lock Tubing UltraFlex Outlet Manifold

**Providing the ultimate flexibility
where you need it most**

The Benefits of UltraFlex

More than 30 years of piping installation experience has driven us to the development of the Quick-Lock Tubing UltraFlex outlet manifold. The bottom of every single drop line in a compressed air/inert gas system is the most critical point to all users. Having the ability to use the air/gas supply in a safe and productive way is of the upmost importance in today's workplace. UltraFlex, as the name suggests, provides total point of use capability from a single component. Not only does UltraFlex provide incredible flexibility, it also eliminates the multiple connections that you usually associate at the bottom of drop lines, connections that usually leak and add to the substantial cost of running a compressed air or gas systems. UltraFlex is the first and only total solution for simple, safe and flexible point of use control.

- ½" npt female - Straight through porting
- 4 x ½" npt female outlet connections
- Outlets ports ergonomically positioning to allow easy insertion/disconnection of quick disconnects
- ½" base drain port capability for simple removal of condensate
- Strong one piece component with built in mounting capability providing every solution for point of use applications
- Multiple add on options providing unparalleled point of use flexibility
- Made in high grade marine aluminum & Anodized for ultimate corrosion resistance

Experience Proven Results™

Ultraflex Accessories

Outlet Manifold

Part Number C90601-MFD

1/2" npt female inlet
4 x 1/2" npt female outlets
1/2" npt female base port

Electronic Drain

Part Number C90900-04

110 Volt electronic timer drain with isolation valve and strainer

Quick Disconnects

Part Number C80191-08

Universal couplings that will work with all major Couplers, ARO, True Flat, Parker. (max 4)

Plugs

Part Number C90610-08-NPT

Plug unused ports with O ring sealed plugs

Pressure Gauge Kit

Part Number C90601-G

2-1/2" stainless steel liquid filled gauge
0-300psi Complete with all mounting components

Zero Loss Drain

Part Number CZLD-200

Drain valve

1/2" Male/Female Valve

Part Number C86310-08-08

Male/female valve for In-let isolation and manual drain
