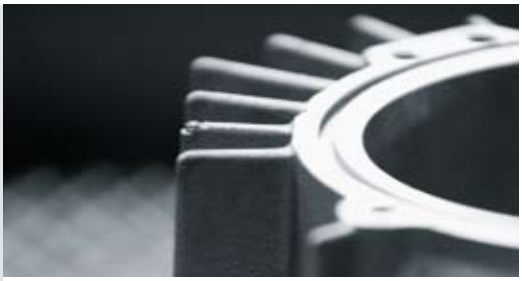
V-Series Oil Lubricated Rotary Vanes



V-VC 202 / V-VC 303

Elmo Rietschle
A Gardner Denver Product

> Even smaller
> Even more efficient
> Even more simple to service

- **Comprehensive logistics**
- **On-time delivery**
- **Quick response times**
- **Designed and manufactured in Germany**

High volumetric efficiency at low power consumption

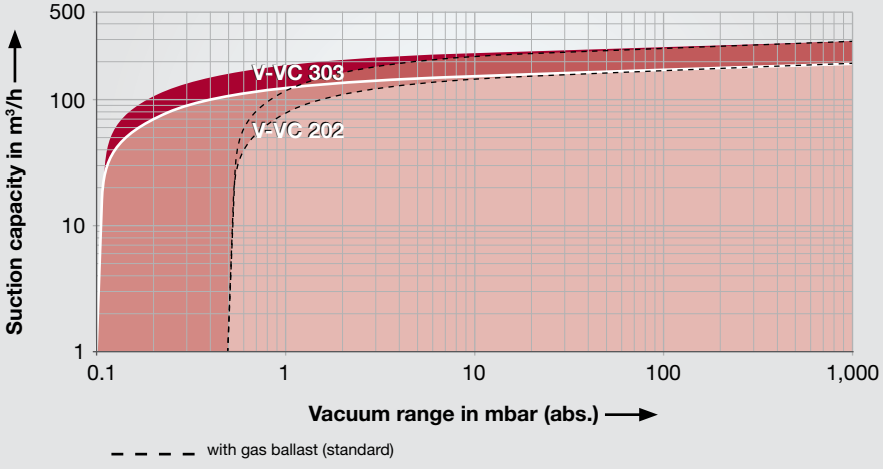
The Elmo Rietschle oil lubricated rotary vanes have been the favorite choice for a wide range of industrial fine and coarse vacuum applications over many years now.

Following customer demand we have now redesigned this successful industry classic. Like its smaller versions, the V-VC 202 and 303 now offer:

- Faster and easier service
- Lower power consumption at higher efficiency

v-vc

Performance



Vacuum & Pressure

Typical applications

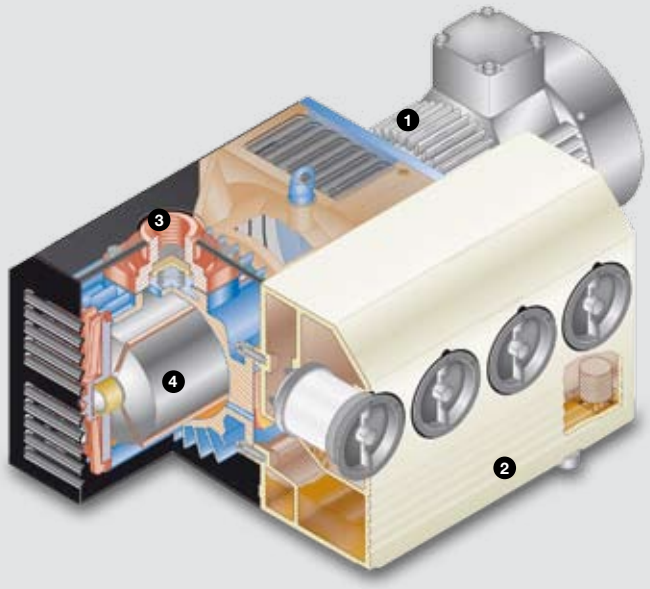
- Central vacuum systems
- Environmental engineering
- Food processing
- Industrial applications
- Medical industry
- Packaging industry
- Pick and Place
- Pneumatic conveying
- Vacuum drying
- Woodworking industry

Advantages at a glance

- Long-life vanes
- Compact design – smallest pump available on the market
- End vacuum 0.1 mbar (abs.) without gas ballast
- End vacuum 0.5 mbar (abs.) with gas ballast (standard)
- O-ring sealed compression chamber
- Mesh filter and return valve integrated in suction side
- Service access sideways

Options

- Bigger add-on gas ballast
- Monitoring of oil level, temperature and separating filter
- Choice of prefilters



1 Drive | **2** Oil separator | **3** Suction side | **4** Compression
