# 18-22 KW ROTARY SCREW COMPRESSORS Apex VS Series<sup>™</sup>

#### **Peak Performance**

Featuring professional grade components such as, a high efficiency TEAO motor, robust and high performing Allen Bradley inverter drive, and corrugated steel braided hoses, the variable speed Apex VS Series<sup>™</sup> from Gardner Denver offers a fully enclosed, low noise compressor package that delivers the performance and reliability you demand. The integrated airend design includes easy-to-access service items, a thermostatic mixing valve that ensures proper compressor warm-up and prevents moisture contamination of oil and a robust, two-stage lubricant separation system that keeps oil carryover to a minimum. The Apex VS Series<sup>™</sup> from Gardner Denver – a peak performer and solid investment in your organization's future.

### Information at your Fingertips

All Apex VS 18-22 kW units come equipped with the AirSmart  $G2^{TM}$  microprocessor controller. The AirSmart  $G2^{TM}$  from Gardner Denver is more than just a controller—it's the lifeline to understanding your system's operation. With built-in digital gauges, a maintenance dashboard and real-time and historical trending, the AirSmart  $G2^{TM}$  gives you the information you need at your fingertips.

### **Configuration Flexibility**

Apex VS Series<sup>™</sup> compressors are available in base mount or Total System<sup>™</sup> configurations. The plugand-play Total System<sup>™</sup> configuration is an Apex VS Series<sup>™</sup> compressor mounted on a horizontal receiver tank with or without a refrigerated air dryer. Featuring standard high-end components such as a three-way bypass valve, stainless steel piping, integrated fork lift slots and an automatic tank drain, the Apex VS Total System<sup>™</sup> is the ideal solution for a compressed air system that requires minimal installation time and cost.

1) Dryer on Total System package has separate electrical connection and voltage.

## Apex VS Series<sup>™</sup> Features (18-22 kW)

- Direct drive, oil flooded, single stage rotary screw air compressor
- AEON 4000 lubricant
- Air-cooled only
- AirSmart G2<sup>™</sup> microprocessor controller
- Allen Bradley inverter drive
- Automatic zero-loss condensate drain (with receiver tank selection only)
- ASME rated aftercooler; CRN approval pending
- CSA labeled and approved electrical controls and wiring

- cUL labeled electronics—including control panel (UL 508A)
- Integrated spin-on oil filter, spin-on air/oil separator and two-stage air filter
- Integrated thermostatic thermal mixing valve
- Moisture separator (shipped loose)
- NEMA 1 electrical enclosure
- Optional sequencing kit
- Optional ASME receiver tank (240 gallons)

- Optional mounted refrigerated dryer (with receiver tank selection only)
- Optional cold coalescing filter (with mounted dryer only)
- TEAO main motor
- Three-way bypass valve (with receiver tank and mounted dryer only)
- Stainless steel piping (with receiver tank and mounted dryer options)
- Voltage: 230 / 460 / 575V
  (3 phase only)
