

ROBUSCH®

LongLife
Synthetic Oil
Lobe and Screw Blowers

**Genuine Oil
Genuine Performance**

Synthetic Screw and Lobe Oil

LongLife by Robuschi is a complete range of lubricants, created to fulfill the high demanding requirements of lobe and screw blowers.

We know that blowers can operate in difficult and extreme conditions with high or very low temperatures and even with pressure oscillation, therefore using the proper oil can prevent failures, improve high temperature resistance and reduce oxidation.

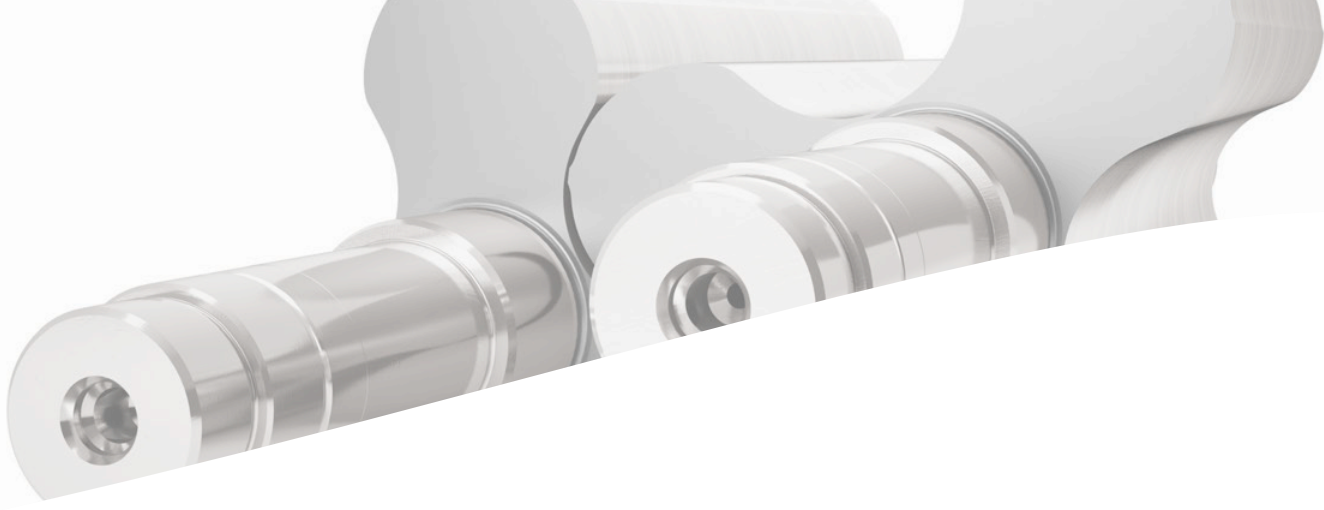

Our decades of experience in low-pressure market led to arrange this blend of fully-synthetic oils with excellent wear protection, good ageing stability to protect your investments and keep you productive.

Performance table based on the operating temperature required

Oil type & Part number	Ambient Temperature									Discharge Temperature (T2)
	-30°C	-20°C	-10°C	0	10°C	20°C	30°C	40°C	50°C	
LongLife Screw H RB2151560964-5I RB2151570964-20I										> 130°C
LongLife Screw M RB2151540964-5I RB2151550964-20I										from 100°C to 130°C
LongLife Screw C RB2151520964-5I RB2151530964-20I										< 100°C
LongLife Screw F* RB2149180964-5I RB2149190964-20I	Used under specific operating conditions - Consult with Robuschi									

* Recommended for forced lubrication

Benefits at a Glance

- High viscosity index grants wide temperature range of operation
- Excellent oxidative stability assures longer service life
- Excellent rust and corrosion resistance protect the internal compressor components
- Low foaming tendency improves performance
- Good demulsibility helps the equipment protection in case of reduced product maintenance
- High quality oil grants extended drain intervals, with the environmental benefit of less used oil waste generated.

Performance table based on the operating temperature required

Oil type & Part number	Ambient Temperature										Discharge Temperature (T2)
	-30°C	-20°C	-10°C	0	10°C	20°C	30°C	40°C	50°C		
LongLife Lobe H RB2153790964-1I RB2149240964-5I RB2149250964-20I											> 130°C
LongLife Lobe M RB2149220964-5I RB2149230964-20I											from 100°C to 130°C
LongLife Lobe C RB2149200964-5I RB2149210964-20I											< 100°C
LongLife Lobe GX RB2151580964-5I RB2151590964-20I	Used under specific operating conditions - Consult with Robuschi										

Maximum uptime. Extending performance.

We provide a range of services to ensure our customers' machines are well maintained to deliver maximum performance.

We offer preventative and planned maintenance programs, genuine parts, on-site service, professional maintenance and efficient training.

Within our service portfolio, you will find different options and services needed for optimal performance, maximum uptime and operating efficiency for your Robuschi equipment.
